Thru : Assistant Director, ORR  
Chief, Materials Division  
Acting Chief, Petroleum Branch

1 August 1952

Intelligence Coverage of Bulgaria and Southern Rumania

1. Type of Intelligence - Petroleum
2. Quantity of Intelligence on Area
  - a. Southern Rumania - fair
  - b. Bulgaria - poor
3. Currency of Intelligence on Area - fairly current
4. Reliability of Intelligence Information
  - a. Southern Rumania - fairly reliable
  - b. Bulgaria - believed to be largely unreliable
5. Known Unexplored Sources - no comment
6. Evaluation of Gaps in Information
  - a. Southern Rumania - There is fair coverage of production refining and distribution of petroleum. The need for additional coverage is considered important but not critical.
  - b. Bulgaria - The coverage is poor but additional information with the exception of stocks and storage is considered of minor importance. There is a definite need for additional information on stocks and storage.
